introducing bliss body butter lite

Happy birthday body butter! After 10 years of smoothing skin from Soho to Scottsdale, bliss body butter's little butter brother is born—and it's the new king of smears.

Introducing **bliss body butter lite**, a lightweight, long-lasting lotion version of our original, best-selling **body butter**. Now you can shed some 'light' on summer beauty, but still stay super smooth from elbow-to-toe. Available in lemon+sage (bliss' signature scent) and naked (unscented, which makes it perfect to mix with your favorite perfume) **body butter lite** is perfect for those who like their dew's a little less 'dense'.

This featherweight formula includes all the 'light' stuff:

- **shea butter** and **ilipe butter** leave skin silky soft and smooth
- **macadamia nut** and **grape seed oils** provide natural, lasting moisturization
- **Pro-Vitamin B5** provides skin conditioning, while **sodium pca** attracts and locks in moisture

The 'weight' is over—**body butter lite** gives you the skin smoothing and soothing solution, without feeling greasy. But don't leave our original body butter in the cold—let your skin come out of hibernation with the protection of coconut oil and sodium hyaluronate, perfect for the winter months.

blisstip> Mix naked body butter with foundation to camouflage less than perfect parts. Perfect for bikini-bearing season.

body butter lite: 8.5oz \$29

available at **bliss spas**, **blissworld.com**, **bliss catalog 888 243 8825**, and select **sephora**, **nordstrom**, **blue mercury** and boutique retailers.
