'neck'-cessity

introducing **thinny thin chin** bliss' new neck firming cream

Calling all jiggly jowls and droopy décolletés. It's time to wage war against your face's most often neglected area.

Bliss' new thinny thin chin™ helps pick up the slack (seriously!) with a dual-action complex that tones and addresses signs of v-zone (that's décolleté in spa speak) aging instantly and over time. Like a liquid bra, **thinny thin chin** will help overhaul your overhang by firming, hydrating and improving the appearance of neck lines, crepiness, vertical cords, lumpiness and hyper-pigmentation.

ingredients include:

- **botanical age fighting complex** hydrates, soothes, firms and protects
- **dual-action tightener** protects skin against free radical damage and supports collagen maintenance while providing a tightening effect
- **resilience enhancer** helps protect collagen and elastin from breakdown to improve the resilience, suppleness and smoothness of skin
- **multi-action skin renewing complex** helps smooth, hydrate, firm, improve skin clarity and brightness, and gently exfoliate

clinicals:

after 6 weeks*

- 68.2% of testers reported a reduction in sagginess of the neck and décolleté areas
- 76.2% of testers felt that skin on the neck area was toned and supple
- 63.6% of testers reported a decrease in the appearance of wrinkles in the neck area

*Results reported from an independent clinical study conducted over a 6 week period.

in-spa

thinny thin chin treatment

Facials can take years off, but don't forget that furrowed or flagging skin below the chin will fess up those 40+ faster than you can say 'gobble gobble'. This multi-step build-on can be done during any facial to brighten, tighten, firm, refine texture, reduce appearance of fine lines and wrinkles, and give you a jump on jiggly jowls and a droopy décolleté.

\$65

available at all bliss spas
